Subject: RE: Agenda for meeting with Jared

Yes please call me on my cell, thanks. For second bullet I recommend you make sure he understands that they are putting conditions on these but they do not indicate a clear role for us to evaluate (assuming we even want to entertain prospect of new wells in 11 formations)

Subject: Agenda for meeting with Jared

Mike/Jane/Sylvia

Slight revision to the agenda for our meeting with Jared. I'll bring copies. Mike, advise whether to patch you in.

Agenda for CA UIC Discussion

1. What are the big ticket items identified by our review of the Plan?
 - Proposal for rulemaking process to impose requirements/deadlines (e.g., shutdown of disposal wells into sub-3,000 aquifers by Oct 2015; shutdown of all non-compliant wells by Feb 2017; other requirements?)
 - Proposal to allow new disposal wells into 11 formations, absent AEs
 - Absence of interim steps/milestones/deadlines (e.g., review of injection wells in Category 2

and 3; submittal of AE requests; collection and review of specific information for 11 formations; submittal of info/AE applications for wells affected by Oct 2015 deadline)

- Other topics

- Continued lack of response to 2011 audit (and results of internal State audit)
- Timing on searchable database
- Limited communications/outreach materials

2. Next Steps

- Meeting with State on Feb 20th (develop intermediate milestones/targets)
- Establish regular ongoing State/EPA meetings
- Formal response to State plan submittal; target early March
- State/EPA Workshops
- Address ongoing communication issues
